Open Ended Questions

1. Very informative
2. Very easy to work with, always responds in a timely manner, excellent instructor
3. The course workload in the final semester does not take into account distance ed students lifestyle. All in this cohort work to support families, drive long distances to get to class, and attend to a heavy course load, while expected to study for and take Praxis II and do an Internship at the end of the term. There should be no surprises that so many fail to finish on time - or at all.
4. COE should devote a large block of time in helping its Distance Ed students prepare for Praxis II the most important assessment in their career at Appstate. I've been told that preparation for Praxis II content knowledge came from lower level course work, for older students like myself, that may have been years ago. This is a huge problem in my opinion.

6. I liked being about to be included in the instructional part of this class by being given topics to research and present to the class.
7. The instructor treated everyone fairly and respectfully. She always gave us positive feedback and shared her viable experiences with us as a class.
8. With this class occurring the same time as CI 4490, it has been difficult to put the time in the class that I wish I could have. Having an impact project, unit project (with the CI 4490) as well as the expert study and all the other time consuming responsibilities with this class has made it very very difficult.

this course	1	When I'm in my major and in my senior year, I'd actually like to have class held and not be cancelled for whatever reason. I paid for this course, and my level of knowledge on the subject did not grow in this class.

Open Ended Questions

21. We are one big family, and we all have fun together.
22. She is relatable and fun to be around.
23. Hold class more often and come to class more prepared.
24. I know sometimes there are times when class needs to be cancelled for personal reasons, however, we would always benefit more from having the professor there. If not with activities then to tell valuable stories on how classroom management things were handled when they taught middle school or other valuable information we may need to know about taking the Praxis II, applying for jobs, resume help, out-of-state options for jobs, etc. That would be helpful.

The course content was well organized	2	The organization of the course was pretty bad. Due dates would change weekly, expectations were not always clearly communicated, and syllabus was not very reliable
Expectations for this course were clearly communicated	3	Expectations for assignments and when they were due were not always clearly communicated
I found instructional materials used in this course to be helpful	4	The readings, for the most part were pretty beneficial, although I wish we would have spent more time discussing and breaking them apart.
The instructor utilized teaching methods that aided my learning	1	Teaching methods used for this course were not beneficial to my learning. Although I love the idea of students learning through presentations, I would have loved to have more time diving deeper into the content as a class. Also, would have loved to hear teacher's analysis of content more in class. Did not feel like I learned a lot through this course.
The instructor was available to students for help and support	4	
The instructor provided feedback in a timely manner	4

this course	2	I think the content of the course is fascinating and would have been fun to learn. But the teaching methods used to teach the course may not have been the most effective.
this instructor	1	I think Dr. Ramirez is an amazing person. I think she may have just had an off semester. The class was very disorganized, many classes were cancelled, and not much was taught.

Open Ended Questions

26. The content was really cool and relavent. I also enjoyed having to research my own information and presenting it to class.
27. She's very cool and always willing to help in any way that she can. She is also generally very knowledgeable.
28. To be a little more organized. I also would enjoy more instructional time from her. Instead of having the class do so many presentations, I would love for her to share some of her expertise on the material.
29. Great person, but maybe wasn't as focused this semester? I would wish her class would be more organized

and classtime more sturctured and focused.

31. I like the design of the course and the fact that we got to learn about different groups of students. The bag speech was a good introduction to the course. I also really enjoyed writing the autobiographies, but I feel like all three of these could have been combined into one, or maybe spaced out a little more because I feel like I had to rush on the last two.
32. Dr. Ramirez is a great professor and is great about leading class discussions.
33. I was sad that we missed so many days this semester due to various reasons.

51. Even though the expectations for the project could have been laid out a little better, I really enjoyed the group project where we learned about the different groups. I found a lot of the information very interesting. The presentations on rural and urban students were of special interest: comparing how I feel about each as someone with a very rural background to how they were presented.
52. For the most part she is very specific with her expectations, and has everything she wants laid out perfectly in her rubrics. Also she is very prompt with giving feedback, and that feedback is helpful and engaging with the work.
53. My only complaint is that she did not really do a lot of teaching this semester. Several classes were cancelled, and a lot of the time when we did have class students were presenting information. I still learned a lot though, so overall this is not a complaint: it was just different.
54. Good course and instructor.

57. She makes herself really relatable for us.
58. I honestly could not tell you the difference between this class that she taught this semester, and the Block I class that she taught last year. It was the same textbook, same reading responses, same classroom discussion. We also met less than half of the time, so I am not even really sure what this class was about. I really like Dr. Ramirez, but this class was a waste of my time. I think that she should teach a different course.
